## Skills

- HTML, CSS, JavaScript
- React
- Node.js, Spring Boot
- MongoDB, H2 Database
- Git & GitHub, Render
- Android Studio
- Figma
- Problem solving, Team collaboration

## LANGUAGES

- English: Fluent
- Spanish: Intermediate
- French: Intermediate
- Arabic: Native

## About Me

Master's student in Computer Science at ETSIIT (Universidad de Granada), focused on frontend and full-stack development. Skilled in React, Node.js, MongoDB, and Spring Boot. Passionate about building clean interfaces, solving real problems, and collaborating on technical projects. Seeking internship opportunities to grow professionally.

## Education

### Master's in Computer Science

*ETSIIT – Universidad de Granada, Spain*

2025 – 2027

### Bachelor's in Computer Science / Ingeniería Informática

*FSTH - Faculty of Sciences and Techniques Hoceima*

2020 – 2024

## Projects

### Supermarket Comparison Website

*React • Node.js • MongoDB • Render*

Web app comparing product prices across Spanish supermarkets.

### Car Rental Website

*React • Node.js • MongoDB*

Full-stack rental management platform with authentication and booking system.

### Shopping Cart App

*Spring Boot • Thymeleaf • H2*

Basic e-commerce shopping cart with backend logic.

### Product Catalog Mobile App

*Android Studio • Spring Boot • Google Maps SDK*

Mobile app to browse product catalog and view store locations.
