SKILLS

- Frontend Development
- HTML - CSS - JavaScript - React
- Backend DevelopmentNode.js
- Spring Boot
- Databases MongoDB
- Cloud & Deployment Render
- Tools & Platforms Git
- Figma
- Android Studio
- Data & Intelligence Data preprocessing .
- Soft Skills Problem Solving
- Creative Thinking
- Strategic Planning
- Team Collaboration

LANGUAGES

- Arabic — Native
- English — Fluent
- Spanish — Intermediate
- French — Intermediate

ABOUT ME

Master's student in Computer Science at ETSIIT, passionate about frontend and full-stack development. Experienced in React, Node.js, MongoDB, and cloud deployment using Render. I enjoy building clean interfaces, solving real-world problems, and collaborating on technical projects. Currently seeking internship opportunities to apply my skills and grow professionally.

EDUCATION

- **Master's in Computer Science**

ETSIIT – Universidad de Granada, Spain
2025 – 2026 (expected)
Relevant coursework: Cloud Computing, Data Processing & Mining
Tools learned: Figma, Render

- **Bachelor's in Computer Science / Ingeniería Informática**

FSTH – Al Hoceima, Morocco
2021 – 2024

PROJECTS

Supermarket Comparison Website 🛒
React • Node.js • MongoDB • Render
Web app comparing product prices across Spanish supermarkets. Deployed using Render.

Car Rental Website 🚗
React • Node.js • MongoDB
Full-stack platform for managing car rentals. Final Bachelor's project.

Shopping Cart App 🛍️
Spring Boot • Thymeleaf • H2
Basic e-commerce shopping cart with backend logic and template rendering.

Product Catalog Mobile App 📱
Android Studio • Spring Boot • Google Maps SDK
Mobile app to browse product catalog and view store locations on a map.
